## ***Providence Group***

Providence Group — Canadian company that understands international business and trade. Providence assists Canadian companies to enter the CIS markets and supports their operation there.

Providence organizes B2B meetings, meetings with the government officials and provides consulting services to its Canadian clients.

Keen knowledge of domestic law, policies and professional contacts, enable Providence to effectively consults and represents its clients.

Providence has comprehensive knowledge of eastern European business mentality.

## ***Aerospace Ukraine & CIS***

CIS is the key growth market in the next 20 years:

- Highly skilled aerospace engineers
- Lower cost of production and outsourcing
- Superior space equipment manufacturer
- Ukraine's aerospace sector is tax-exempt
- Opportunities for cooperation in R&D, MRO, manufacturing, nanotechnology, licensing, permits and certifications
- Canada & Ukraine negotiate FTA

Production: civil and transport aircraft, helicopters, engines, flight control system, space equipment and control software systems, space rockets, aggregates, etc.

## ***Mining Ukraine***

Ukraine — 20,000 deposits with 200 minerals.

Ukraine is 5th largest iron ore exporter, and 6th steel exporting country.

The mining volumes of the Iron, manganese, titanium-zirconium & other ores are among the largest in Europe and the world.

Business opportunities: over 60 state owned coal mines are for sale; selling mining, oil and gas equipment; offering technical and financial services; hiring skilled and competitive mining specialists.

Opportunity to invest into existing and developing oil and gas reserves projects.
